

## ***The Zumo Premium Menu***

We are proud to present to you 'The Zumo Premium Menu' - **six exclusive recipes** containing a **unique mix of fruit & vegetables** with **natural health supplements**, each with their own **unique benefits**.

Sustaining a healthy and well balanced diet is not always easy. Sometimes when we've missed a meal or we're feeling tired, we turn to junk food.

And it's no wonder.

It's fast and convenient. After all, we don't always have the time to prepare a meal with fresh ingredients from scratch...other times we just can't afford it. So we turn to cheap and easy fast food and microwave dinners that we know aren't good for us.

What else are we to do?

**'The Zumo Premium Menu' truly represents a revolution in healthy eating.**

It combines the **convenience and hassle-free** nature of junk food with the **nutrition of a freshly prepared meal**. All drinks on 'The Zumo Premium Menu' contain not only a specific combination of fruit and vegetables but also natural health supplements, such as protein, B vitamin complex and organic wheatgrass. So whether you need a pick up from the mid-afternoon slump or have missed a main meal, you can do it the right way.

'The Zumo Premium Menu' contains only the **best, natural, raw ingredients, made fresh in front of you every time**. There is **no compromising** on the **quality** of our food.

'The Zumo Premium Menu' is now available at participating bars throughout the Republic of Ireland in January.
